# Measured Performance Data

## Australian Sheep Breeding Values (ASBV's)

<b>YCFW</b>	Yearling Clean Fleece Weight (kg)	Rams with higher YCFW ASBV's will produce progeny that will cut more wool.
<b>YFD</b>	Yearling Fibre Diameter ( $\mu\text{m}$ )	Rams which more negative YFD ASBV's will produce progeny which are finer.
<b>YWT</b>	Yearling Weight (kg)	Rams with more positive YWT ASBV's will produce progeny that grow quicker and are heavier at a certain age.
<b>YFAT</b>	Yearling Fat Depth (mm)	Rams with more positive YFAT ASBV's will produce progeny that have more subcutaneous fat, which improves reproduction rates and meat quality.
<b>YEMD</b>	Yearling Eye Muscle Depth (mm)	Rams with more positive YEMD ASBV's will produce progeny that have more muscle, independent of weight, and a higher lean meat yield.
<b>EBWR</b>	Early Breech Wrinkle score	Rams with more negative ASBV's will produce progeny with less breech wrinkle and, in general, less body wrinkle as well.

## Selection Indexes

<b>DP+</b>	Dual Purpose Plus Index – ranks animals on their ability to produce merinos for dual purpose operations. The index is aimed at producers whose majority of sheep income comes from sheep sales. It is for self-replacing merino flocks that do not keep their wethers and also join a portion of their ewes to terminal sires for lamb production.
<b>MP+</b>	Merino Production Plus Index – ranks animals on their ability to produce progeny for a fine wool operation that has significant surplus sheep sales. The index is aimed at producers whose sheep income is a balance of both wool and surplus sheep sales. It is for self-replacing merino flocks who do not keep their wethers to produce wool.
<b>FP+</b>	Fibre Production Plus Index – ranks animals on their ability to produce progeny for a fine wool operation that retains a proportion of wethers. The index is aimed at producers whose majority of income is from the wool clip with a focus on wool quality. There is a focus on improving fleece weight and fibre diameter and also includes staple strength, worm resistance and reproduction.

## Merino Bloodline Performance

Merino Bloodline Performance 2007-2018. We are continuing to perform in the top of the merino bloodline comparison. We are ranked in the top 10% for \$/head and profit/ DSE.

We are a high accuracy bloodline.
